BOOK ORDERING INFORMATION

The 4th edition of "Pharmacokinetic and Pharmacodynamic Data Analysis: Concepts & Applications" by Gabrielsson and Weiner is used by educators, scientists and students as a reference source on pharmacokinetics and pharmacodynamics. The updated Fourth Edition is an expanded, comprehensive and practical guide to design, analysis and interpretation of kinetic and dynamic experiments. This new text provides the expertise necessary to solve a wide range of commonly appearing problems in an easy and pedagogic way. The addition of new Case Studies makes each chapter on basic concepts more useful for teaching of undergraduate courses and could also be used to support graduate courses in PK/PD.

The price for the 4th Edition (ISBN 91 9765 100 1) is \$175 plus shipping. Not available to resellers.
